Engineering Apprentice? Going to University?

£21,800

WHITWORTH SCHOLARSHIP

Our Scholarship could help fund your Engineering Degree or Postgraduate Research and is independent of other income

You may qualify for a Whitworth Scholarship of up to £21,800 studying full or part time for an engineering degree.

You must have undertaken an approved engineering training scheme lasting typically 2 years.

You must have been offered or have commenced an accredited engineering degree-level programme.

The Whitworth Scholarship Awards Scheme also offers scholarships to former engineering apprentices for Postgraduate Research leading to an MPhil, PhD or EngD, valued up to £24,750.

Scholarships may be awarded for any Engineering discipline
